

ROCK SECURES TECOPA

CONTROL OF GREAT GREEN-WATER PROPERTY CHANGES HANDS.

[By Associated Press.]
SAN FRANCISCO, Sept. 11.—Statements are published here that President Brock of the Tonopah Mining Company, and associates, have secured a controlling interest in the Tecopa Consolidated Mining Company, located thirty miles south of Greenwater. Half a million was paid for the property about a year ago. It is said to be a lead and silver property and its ores are in demand by the smelters. Information of the change of control comes from Philadelphia.

MURDER IS BAD OMEN FOR GAMBLER

MONTE CARO, Sept. 14.—The Goolds passed the hottest Sunday of the year cooped up in the Monegasque jail. An occasional cry of "Kill them!" penetrated from the outside, for the citizens of the principality share in the official disgust that prisoners guilty of such crimes should disturb the ordinarily gay atmosphere and keep away the hundreds who in the next few months will flock to the neighborhood as unfortunates for gambling.

Ledger Goold passed the morning begging for whisky and a change of clothing. His wife, in protesting her innocence, blames their ruin on her husband's drinking. The husband declares that he committed the crime alone, but neither the Marseilles nor Monaco judges credit his story, saying that there is evidence proving that the man and woman did it together. The whole affair greatly perplexes and annoys the authorities of the theatrical little principality, for they are confronted with a situation not known before for many years. It has become the unwritten law not to "pollute" the joyous air of Monte Carlo with protracted trials. The Goolds are charged with murdering and dismembering a Swedish woman named Emma Levin at Monte Carlo. They were arrested in Marseilles with the victim's remains packed in their luggage.

ENCAMPMENT ADJOURNS.
SANDUSKY, O., Sept. 11.—The fourth annual encampment of the United Spanish War Veterans of America adjourned at Cedar Point this afternoon. Boston went out for the next year's encampment over Asbury Park, Denver, and Cedar Point.

WOOLWINDER WINS.
DONCASTER, Sept. 11.—The rich St. Leger stakes, amounting to about \$20,000, was captured by Woolwinder, with Halsey up.

Murdered the Count For His Insurance

[Associated Press.]
MOSCOW, Sept. 11.—A sensational announcement that the real murderer of Count Komarowsky, who was shot at Vienna, September 5th, is named, has been made here. The man who recently absconded here with the count's money, and who is now in the city, is said to be the murderer. Komarowsky married a Russian girl, Tarnovska, who was Philistine in her tastes. Komarowsky, who was a member of the national guard and a member of state, insured his life for \$100,000 in favor of the woman, who is said to have subsequently obtained his money with her. The woman is said to have been a Russian girl, and that it was the woman who shot and killed the count. The lawyer and the woman are held in custody at Vienna, charged with murder.

BITTER FIGHT FOR TAMMANY CONTROL

[By Associated Press.]
NEW YORK, Sept. 11.—The Tammany braves entered today upon the final week of the bitterest campaign that has waged in twenty years for control of the democratic organization of New York county. One week from last Tuesday the primaries will be held, and it will then be determined whether Charles F. Murphy is to be left in possession of the Tammany leadership or whether the faction opposing him will have gathered sufficient strength to wage a successful campaign for his dethronement.

That the Tammany chief is alarmed at the display of power made by his foes is made apparent by the remarkable activity in the Fourteenth street Wigwam, and from the old-fashioned zeal with which the contests against the reform element have been conducted. Murphy realizes that he is fighting for his life and he authorizes all his lieutenants to leave no stone unturned or weapon undrawn to bring about victory. On the other hand, the anti-Murphy contingent, which is headed by Mayor McClellan, has been making one of the most dignified yet effective campaigns ever waged in a primary contest, and the inroads they have made upon Murphy's stronghold have created a panic in some Tammany headquarters.

ANNUAL COST OF PANAMA CANAL

[By Associated Press.]
WASHINGTON, Sept. 11.—The Panama canal has cost the United States \$84,449,000, up to December 31st, 1906, according to a statement of the auditor of the expenditures made up to that date and just published. The bulk of this expenditure was \$50,000,000 to the French company and Panama government for canal property, right of way and franchise, \$3,442,220 went for material and supplies for general administration. There was expended \$1,034,200 for government and \$4,581,000 for construction and engineering work. The other expenses were \$9,729,554, which include \$1,055,582 for rolling stock, machinery, second main track, buildings, water-works and incidentals.

DECISIVE ATTACK UPON THE ARABS

[By Associated Press.]
PARIS, Sept. 11.—Premier Clemenceau announced tonight that he had received no further news from Morocco. He has instructed General Drude, commander of the French expeditionary force, to deliver a sharp and decisive attack upon the Arab tribesmen when, in his judgment, the occasion is apparent. At the same time the premier requested the general to inform him by telegraph when he thought he would take the offensive.

CUDAHY PLANT BURNED.
[By Associated Press.]
PHILADELPHIA, Sept. 11.—The Cudahy Packing Company's plant here was burned this morning and the loss is \$200,000.

PEACE FOR REPUBLICS

Five Central American
United States and Mexico
Point Out to the Warring
Countries the Necessity for
a Peace Compact.

[By Associated Press.]
WASHINGTON, Sept. 11.—A practical agreement on all the main points and a general good will marked the preliminary meeting today of representatives of the five Central American republics to carry out the suggestion of the United States and Mexico for a permanent peace understanding. After a session of several hours, the conference adjourned until Monday next. The governments represented were Costa Rica, Nicaragua, Guatemala, Salvador and Honduras. Assistant Secretary of State Adee of the United States and Senor Godoy of Mexico were present. The only point on which any hitch occurred was that relating to the protest to be signed. The Central American representatives said they were without authority to sign documents without first submitting it to their governments. One of these said it was possible that this might involve some trouble and perhaps the changing of the protocol in some important particular. Some delay therefore is expected to be caused by reason of this fact. It is not doubted, however, that a permanent peace compact will be entered into.

Many are Wounded In Street Car Riot

[By Associated Press.]
SAN FRANCISCO, Sept. 10.—As a result of an attack upon non-union carmen by a crowd of strike sympathizers early this morning, five men were injured and are now in St. Luke's hospital. The injured are: Morris Risberg, non-union conductor, bullet wound in left chest. Roy Perkins, conductor, flesh wound in right chest. J. J. Cotter, motorman, bullet wound in left upper arm. Harry Cohrs, conductor, bullet wound right leg. Frank Smith, conductor, bullet wound right fore arm. The attack occurred when a wrecking car of the United Railroads, on which were about fifteen men, was approaching the car barn at the corner of Utah and Twenty-fourth streets. As the car was passing a tent occupied by the union pickets, stones were thrown at it and shots were fired by some of the carmen, but no one was hit. The car continued on its way to the barn, where a crowd had assembled. As soon as some of the men had alighted the trouble started. Policemen Wade, Miller and Bigelow appeared on the scene and ordered the men not to shoot. It is said that this command was disregarded, whereupon the police used their revolvers, five carmen being wounded. H. Green, a non-union carman, was placed under arrest on suspicion of having fired one of the shots. The story told by the police casts all the blame upon the non-union carmen. Other non-union carmen were arrested and charged with assault to murder and with carrying concealed weapons. President Calhoun and his assistant, Thornwell Mullally, after an investigation, pronounced the facts different and laid all the blame upon the strikers.

CONTEND ROACH WAS ELECTED

[Special to the Bonanza.]
GOLDFIELD, Sept. 11.—There is discontent manifest in the miners' union as to the methods employed in the recent election, which resulted in making C. H. McKinnon president and Nathan the incumbent. The friends of St. John and the rest of the agitators, who were in the city, called a new election. Several directions that Roach won the election fairly, but was not elected. So far has this feeling gone, that a petition has been widely circulated calling for another election. Several hundred names have been already appended to the petition, enough to call for a new election. The general impression is that there will be something doing at the next meeting on Tuesday night. Two weeks hence the newly elected officers will take their places.

BECOMES MANAGER.
KANSAS CITY, Sept. 11.—Charles C. Black, general manager of the Metropolitan Street Railway Company of this city, has resigned to become manager of the United Railroads of San Francisco.

SANTA ROSA IS ASHORE IN FOG

[By Associated Press.]
SAN PEDRO, Sept. 11.—The Pacific Coast Steamship Company's passenger steamer Santa Rosa went ashore in a dense fog at 6:35 o'clock this morning four and a half miles north of San Pedro. The lookout mistook the whistling buoy off Point Mermin for the buoy at Point Vincente, where vessels are warned to turn landward in their course to make Redondo. Turning toward the shore the vessel, which was running slowly, struck the rocks, yawning around and then struck both bow and stern in eight feet of water, with twenty feet in the middle. With the sea anchor and windlass the crew pulled off the stern and then with the screw drew the bow on. The Santa Rosa was two and one-half hours on the rocks. Little damage was done and the 127 passengers, who were at breakfast, were not excited. The Santa Rosa proceeded on her way north.

HUNYAN GETS SEVEN YEARS.
[By Associated Press.]
NEW YORK, Sept. 11.—Seven years in Sing Sing was the punishment meted out to Chester B. Hunyan, who stole \$96,000 from the Windsor Trust Company.

OCEAN RECORD IS SHATTERED

[By Associated Press.]
CAPE RICE, N. F., Sept. 11.—The Cunard line steamer Luisitania, whose maiden voyage across the Atlantic is expected to eclipse all ocean records, came in touch, through the wireless telegraph, with the American continent early today. At 5:25 o'clock this morning a message was received from the steamer, saying that the vessel was 225 miles southeast of Cape Rice at that hour. The indicated position of the Luisitania is about 1125 miles from Sandy Hook, so that the big steamer, if she can maintain twenty-five knots, which speed is credited to her, will reach the entrance to the port of New York about 1 a. m. Friday, which will make the time of the voyage about four days and eighteen hours, or more than thirteen hours better than the record trip of the Queenstown to New York.

ADDED MONEY FOR THE DERBY

[By Associated Press.]
SAN FRANCISCO, Sept. 11.—Secretary Percy W. Treat of the New California Jockey Club announced today that added money value of the California Derby to be run at Oakland is increased from \$2500 to \$5000. Six new stakes to be run this season are also announced and there will be two futurities with \$5000 added to each, to be run in 1909 and 1910. The entries to futurities close December 31, 1907. Entries to the stakes for next season close October 28th. The stake blanks will be issued about September 20th.

LOOKS RATHER DARK FOR BRITT

When Britt was taken to his dressing room on the second floor of the clubhouse, Drs. Sullivan, Apple, Ellis and Rosencranz examined his injured hand. The first three agreed that the boxer was suffering from a fracture of the lower end of the ulna, a small bone in the wrist. Rosencranz, however, asserted emphatically that the bone was not fractured, but bruised. Rosencranz is Gan's physician and made the examination at the request of the colored champion. An immense crowd waited at the door of the clubhouse. Announcer Billy Jordan called for Dr. Charles D. McGettigan, as Promoter Gleason and Gans and his manager were anxious to have this physician's opinion. Before Dr. McGettigan arrived, Britt jumped into a big red automobile and was whirled away to his brother's home in Buchanan street. When Dr. McGettigan put in an appearance, he was told that Britt had gone into the front office. The physician hurried thither, but learned that Britt had left the grounds. An effort was made by newspaper

CZAR'S YACHT IS AGROUND

RUSSIAN EMPEROR AND FAMILY ARE ON BOARD THE VESSEL.

HANGO, Finland, Sept. 11.—The Russian imperial yacht Standart, with Emperor Nicholas and Empress Alexandra and their family aboard, is fast on the rocks off Horseva Point on the coast near this place. The yacht is apparently in no danger, as the Emperor and family remain aboard. The Standart ran upon the rocks, which were submerged at high tide, at 4:30 o'clock this afternoon and remained fast. A steam lifeboat from Reval, on the Gulf of Finland, has arrived upon the scene and seven torpedo boats, which have been escorting the imperial yacht on its tour in Finnish waters, are standing by to render assistance if needed.

GOLD FIXTURES FOR RESIDENCE

LONG BEACH, Cal., Sept. 14.—A. D. Myers, a Goldfield millionaire, is having a palatial home built on the bluff opposite Bixby park, and will have all the hardware used on the doors and windows quadruple-plated with gold from his own mines. He estimated that the novelty will cost \$5000. There is only one other house in southern California equipped with gold door knobs, hinges and latches, and that is the Durand residence in Pasadena. Myers intends making his home the most beautiful in Long Beach. The grounds are to be laid out in a unique manner, the bluff terraced and a retaining wall built, the total cost reaching \$150,000.

men to have the arm examined by reputable physicians after Britt left the ring, but he refused to permit of an examination on the ground that enough persons had seen the injury. Britt did not leave the injured member in the splints long, but had it encased in a plaster cast, thus effectively concealing any possible injury. The cast was applied by Dr. John F. Sullivan. The injured member showed signs of swelling, which was considered peculiar. Britt was especially solicitous that no inquiry be made of Dr. McGettigan, who ranks with the best surgeons in the city.—S. F. Call.

New Health Board For San Francisco

[By Associated Press.]
SAN FRANCISCO, Sept. 11.—The new board of health appointed yesterday by Mayor Taylor held a meeting today. Present were: Michael Casey, president of the board of public works, and Acting Chief of Police Anderson, for a conference. The board elected William Oppuls president. The resignation of Health Officer Watkins was submitted. In accepting it the board adopted a resolution complimentary to the retiring officer, who organized, along the lines of the Klatskanie system, the health department of this city. Dr. R. Langley Porter was appointed acting chief sanitary inspector. The board selected a site at Twenty-sixth and Mission streets for an isolation hospital in which plague patients now under treatment at the city and county hospital will be removed. It was decided not to move the other patients, numbering more than 700, from the city and county hospital until the necessity of burning
